July 3, 2020

Having reviewed the plans for the Thorndike Place Comprehensive Permit dated March 13, 2020, at this point we find it difficult at best to comment as submitted. Among others, this project will require structural, wetland, floodplain construction, egress and fire protection details for us to progress this permit.

Also, as with our previous review, permit fees will be required for permit issuance.

Respectfully,

Michael F. Byrne  
Director of Inspectional Services
